Respond! is Ireland's leading housing association, established in 1982

Respond! believe in delivering housing for social investment rather than for financial profit and provide housing for almost 20,000 residents around Ireland. Homes are provided for individuals, families, the elderly, people who are living with a disability and also for some of the most vulnerable groups in society including those who have lived for long periods in hostels, temporary and insecure accommodation.

Respond! seek to create positive futures for people by alleviating poverty and creating vibrant, socially integrated communities. This is achieved by providing access to education, childcare, community development programmes, housing and other supports.

Respond! employ over 300 people who work creatively within a framework of shared values and social goals. The in-house team is spread throughout the country and includes architects, accountants, technical services officers, psychologists, nurses, as well as educational, research, finance, legal administrative, IT, childcare and resident support personnel.

Respond! Housing Association aims include:

- Establish and maintain socially integrated communities rather than simply providing just shelter or accommodation.
- Advance education among residents on our estates
- Promote other charitable purposes beneficial to the community
- Prevent and relieve hardship and distress amongst those who are living in adverse housing conditions.
